(Intro) Am G F G

(V.1)

Am G F E7
Time is slipping away, life is on a Broadway, a gift that can't be saved, a love that won't be braved
Am G F E7
Deception running deeper, my pain ticks like a meter, my mind is far away, oh time and time again

(Pre CH)

Am G F E7
I know my problem, you know it's not that this love cannot be saved, oh time and time again (x2)

(CH)

Am G
I am looking forward and running, deep into the night I'm running
E7 G
The party's in the street but the will is in my feet, oh
Am G
I am looking forward and running, love is pumping through my bloodstream
E7 G
Wide-eyed in the moonlight, the rhythm of a heartache

(V.2)

I cannot find the light switch though I'm searching my apartment
Would you please turn off the car, you know I won't come out that far
Motion to the beat, the party's spilled into the street, and no I won't come dance with you, oh

(Pre CH)

Am G F E7
